

The Art of Dialogue

exploring deep conversation

13th and 14th April

True dialogue is an art form and takes a conscious path. Becoming aware of the generative power of encounter allows us to find ways of experiencing the potential of how a relationship can help us grow and deepen the sense of what we need and who we are.

We will use creative exercises and conversation to explore the theme of meeting from the heart of authentic encounter, alongside exploring what prevents this from happening. Participants will be encouraged to cross over from the everyday and move into experiences of deep listening that encourages personal change and growth.

Cost: £80

Friday evening 7pm-9pm

Saturday 9.30am- 5.30pm

*There is a field out there,
a field beyond right and
wrongdoing. I will meet
you there.*
